REPORT OF FOREST FIRE WARDEN

FOREST FIRE PREVENTION PAYS DIVIDENDS

Most forest fires are preventable because someone is responsible for them. State records for 1950 show 94% of 632 fires resulted from human perverseness and carelessness. Refusal to secure the required warden permit before burning; failure to use good judgment, lack of equipment and assistance while burning; carelessness in smoking and poorly conditioned woods equipment (trucks, tractors, etc.) resulted in a total of 6090.6 burned acres with a loss of \$63,949.10 in valuable property.

Fortunately, these human factors can be dealt with because people can be reached. This the local forest fire warden tries to do by informing his fellow citizens that *everyone must*:—

1. Secure a written permit to burn in or near woodlands when the ground is not covered with snow.
2. Use good judgment in burning and have enough equipment and assistance to keep fire under control at all times.
3. Be careful when smoking in or near woodlands and refrain from throwing lighted material from automobiles.
4. Make certain that all equipment used in the woods is in good condition.

His success depends entirely upon public reaction to his appeals. He does his part—the rest depends upon YOU and

YOUR compliance with burning requirements

YOUR care with YOUR fires and YOUR smoking and

YOUR care of motive equipment you use in the woods.

It all aids, materially, in reaching the desired goal, the

*PREVENTION OF FOREST FIRES—because
PREVENTION PAYS DIVIDENDS !*

SAFEGUARDING YOUR PROPERTY

No one likes fires and certainly we do all in our power to prevent them. In case you are one of the unfortunate people who have a fire, here are a few things to do to help the Fire Department on their job.

1. When calling the Fire Department you will save much delay by calling these numbers:

South Hooksett: Fire Dept. No. 2
Dial 5-7571

Hooksett Village: Fire Dept. No. 1
Tel. Suncook 431

In the past, much time has been lost by people in South Hooksett calling the operator and asking for the Hooksett Fire Department. The operator in turn gives them the Village Department, who has to transfer the call to the No. 2 Fire Department. In the meantime much time is lost.

2. Give clear location of the fire so the shortest route may be taken to the fire.
3. If hydrants are not available, be ready to tell the firemen where the nearest water is located, such as well, brook or a waterhole.

LEO SASSEVILLE,
Deputy Chief, H. F. D. No. 2.

Enrollments and Housing

Totals	222	212	247	258	275	296

The above table shows the increase in the enrollment since 1946-47. This data was taken from actual register figures. Therefore, this table is a true picture of the gain in the number of children from 1946 to 1951. The last column shows the number expected to be present when school opens in September 1951. These figures are based primarily on the school census which shows very definitely that the number of chil-

dren in the public schools of Hooksett will be very close to 300, with the possibility of more.

It is obvious, therefore, that something must be done before September 1951 because of the size of the classes and the inadequacy of room space. Let us look at the facts. According to the data in our possession, there are two possibilities for a solution:

1. Build an addition on the Village School and transport all children to that building.

2. Reassign pupils to the various schools. By this we mean that we must take the overflow from Martin's Corner and transport it either to the Lincoln Park School or the Village School. Again we have two solutions:

- A. If the overflow at Martin's Corner is transported to the Village School, another room must be constructed within the building and another teacher must be hired.

- B. If these pupils are transported to the Lincoln Park School, the same congestion now existing at Martin's will occur.

Under present economic conditions when the greater part of the building materials are being channeled to the defense effort and other national emergencies, an addition at this time seems out of place if we can possibly solve the problem in any other way.

Reassignment of the pupils in the district would seem to be the next possibility. This means that the School Board would have to check the residence of every pupil and transport or send each pupil to the nearest school with the least congestion. This method is very drastic, but nevertheless, it is a solution if the taxpayers refuse to make some capital changes. However, if this reassignment is carried out we shall be faced with two possibilities to be completed at the discretion of the School Board. First, transport either to the Lincoln Park School, or, second, to the Village School. If the overflow at both Martin's and the Village Schools are transported to Lincoln Park, we shall have a condition similar to the one now existing at Martin's. If transportation is made to the Village

School, it will be necessary to construct a room in the basement.

It would seem that whatever is to be done, money will have to be spent with the approval of the taxpayer.

It is my opinion that the best solution would be to take the children in one grade at Martin's and combine them with a similar grade at the Village School, construct another room in the basement of the Village School, and hire another teacher to take care of the overflow or some combination thereof. This solution would cost approximately \$6000.00 including equipment.

The Budget

Probably the greatest single factor in any school report is the budget. This is true every year. It is especially true this year because every man, woman, and child in the town has felt the steady increase in prices and the ever growing rise in the cost of living. This problem was constantly in mind in making up the present budget, but there are some items over which the town has very little control because of existing laws. With the increase in prices, it is very plain, therefore, that there are many things that the children require which must be placed in the budget. Every possible effort was made to reduce items when the situation seemed to warrant such a reduction.

You are all familiar with the fact that the tuition to Manchester Central has increased from \$190.00 to \$250.00 per pupil for the coming year; from \$250.00 to \$275.00 per pupil at Concord; and will undoubtedly reach \$225.00 per pupil at Pembroke Academy. With approximately 75 pupils attending high school, it is not difficult to understand why this item in the budget must be increased to meet the rising number of children who are attending secondary school.

If enrollments continue to increase, more teachers must be hired to meet the situation. This means, then, that the School Board and the citizens of the town must make sure that good teachers are hired and are adequately paid.

Of the other items—retirement, books and supplies, repairs and replacements, new equipment, and the per

capita tax have taken the lion's share of the increases. They have all been based, however, on the increased enrollments and the needs which grow out of such increases.

State Aid to Education

Another significant factor in the budgets of all the towns in the state this year is the matter of State Aid to Education. There will be no state aid for Hooksett this year, but the State Board of Education is placing before the 1951 Legislature a new state aid formula under which the town of Hooksett will receive \$19,290.53 if the bill meets favorably with the Representatives. Under this bill the town will be relieved very substantially of the amount required to meet the school budget. Let us hope that the Representatives from Hooksett as well as from the other towns in the State will smile favorably upon this bill.

Your schools have again been pointed out through its graduates as some of the best in the State. Your teachers, with few exceptions, have availed themselves of the extension courses and summer work in order to improve and understand the psychology of the child and his mental and physical growth. There continues to be improvement all along the line and it is hoped that the men who are now working within the system will continue to be with us another year.

Again, may I thank the Members of the School Board, Teachers, Parents, and Friends of the schools who have so kindly kept faith with the American tradition.

Respectfully submitted,

MURRAY H. WATSON,
Superintendent of Schools.
